

Sinfonia® Pre-Show Checklist

(Please use this check-off list before each show for best results)

Completed by: _____

Date: _____

- Sinfonia plugged into a clean, dedicated power line.
- No other devices (e.g. stand lights) plugged into Sinfonia power.
- Sinfonia is on a clean and stable work surface.
- All applicable Sinfonia devices (e.g. USB Keypad, MIDI Keyboard, AudioFire, Firewire 410 or Profire 610) securely connected and powered.
- Laptop is plugged in and not running on battery power.
- If you are not using the USB Keypad, be sure that it is unplugged and stored in Sinfonia road case.
- Volume: be sure that the volume slider of the Laptop is at the proper level for your show.
- Run Output Test.
- Play through a few different sections in both acts to confirm that Sinfonia is at the proper level and is playing back at the correct pitch.
- Be sure that you have rewound to the beginning of the first song of Act I before you start the show.
- _____
- _____
- Have a great performance!
